GREAT THINGS ARE HAPPENING HERE

BOARD OFFICES: 330 426 4191

At East Palestine City School District, our focus is to build a foundation for life-long learning and success throughout each student's educational career. Students experience a curriculum designed to meet their individual academic, social-emotional and physical needs. We provide a rich and positive learning environment where each of our students are challenged to reach their highest potential. Students who qualify may begin taking high school courses for credit in eighth grade, which allows them to access the several College Credit Plus (CCP) courses we offer on site. For those seeking a skill or trade after high school, we offer Adobe and Microsoft certification programs.

Technology is a priority in our district. Students have access to personal devices, Chromebooks, computer labs, 3D printers, SMART Technologies, touch screen systems, and STEAM (Science, Technology, Engineering, Arts, and Math) labs.

Together we emphasize and promote positive behavior and take pride in our district, self, and peers. We utilize the framework of Positive Behavioral Intervention and Supports (PBIS) to establish systems that focus on social culture, the learning and teaching environment, and behavior supports. By practicing these behaviors, we ensure that students are successful as they transition through their educational career and into productive members of the community.

In East Palestine, we seek to make the school experience engaging and meaningful. It is our goal to foster a school environment that supports a commitment to each other and to the work necessary to achieve our vision. We are proud to provide students with a variety of educational programs, clubs, athletics, and co-curricular activities so that all students can demonstrate success.
